

Paper Campaign Plan — flipbook → chapter (PD30)

Prepared by COMPASS (for Charles; VECTOR on prose pass)
Last synced: 2026-09-05
Status: P0 active — paper talk / flipbook is **primary** intellectual lift (PD30). Data = background unless a slide blocks.
Alex direction: PD29 — question → figure → 1–2 sentence claim; gap slides. PD30 — “The big one is what’s the story?” End-of-semester paper target.
Binding: `BINDING_Selection_is_its_own_step.md` — environment ≠ advancement; score ≠ select.
Working slide table: `_DISPOSABLE_paper_flipbook_PD30.md` (edit claims there; this doc = sequencing + owners).

Print stack

Focus — follow-along now (4 docs)

#	Document	Path
1	YOU ARE HERE (flipbook + slide table)	3-Master_Plan/re_entry/_DISPOSABLE_paper_flipbook_PD30.md
2	This campaign plan	3-Master_Plan/re_entry/PAPER_Campaign_Plan.md
3	PD30 Alex locks (Sep 4)	transcripts/PD30_notes.md
4	Problem in plain English (§1–2)	3-Master_Plan/re_entry/01_The_Problem_in_Plain_English.md

Bind 1 → slides, 2 → sequence, 3 → Alex, 4 → thesis.

Core — full paper binder (+3)

#	Document	Path
5	Three kinds of model	3-Master_Plan/re_entry/02_Three_Kinds_of_Model.md
6	Pass A / Pass B plain English	3-Master_Plan/re_entry/04_Pass_A_and_Pass_B_in_Plain_English.md
7	Hero reset plan	3-Master_Plan/plans/20260721_hero_model_reset.plan.md

Domain evidence (on screen / append)

Domain	Deck / talk track
Army	talent/ Cell 12 Cox/CIF — G1: canonical lead PNG
MBB	HEROs_and_PASSes/sports_sandbox/data_story/MBB_DATA_STORY_reigning_3x3.png
Tenure	.../tenure_sandbox/data_story/TENURE_DATA_STORY_pd29_3x3.png + plot highlights
Mechanism	3-Master_Plan/re_entry/Model.pptx
LOO pedagogy (optional)	.../football_sandbox/perf_story/FOOTBALL_usage_Tj_q16_ew16.png

Not in print stack: Big Fish backup domains — `HEROs_and_PASSes/_DISPOSABLE_big_fish_datasets_assessment.md` (PD30 back burner).

0 — One sentence

Army showed a **strong inverted-U** (promotion vs unit pool LOO) first; **MBB** let the Wang arc continue while **CAC** access was out; **tenure** tests portability — then a **minimal assign** → **score** → **select** story asks whether **congestion in the score** can generate hero-shaped curves without baking the curve into the environment.

1 — Narrative anchor (Charles lock, Sep 4)

Layer	Setting	Talk role
Scientific origin	Army (HRC talent)	Lead phenomenon — strongest inverted-U
Working stand-in	NCAA MBB	Replication — data we had during CAC gap
Portability	Tenure (PD29)	Third selection setting
When CAC returns	Army-forward deck	Re-order slides; refresh G1 figure

Do not imply basketball is the deeper result — it is the **accessible** replication leg.

2 — Campaign arc (six acts → one talk)

Act 0	Frame (puzzle · binding · what is the hero?)	→ NOW
Act I	Phenomenon – Army anchor	→ G1 blocks lead PNG
Act II	Replication – MBB (CAC-gap stand-in)	→ figures ready
Act III	Cross-domain – Tenure	→ figures ready
Act IV	Mechanism – assign → score → select; λ knockout	→ G2 sim PNG
Act V	Pedagogy – LOO vs $\hat{T}_j$ (optional)	→ football twin ready
Act VI	Limits · gaps · contribution	→ VECTOR (G4)
— background (not primary) —		
PEER: tenure scrape · CODA: army refresh when CAC · Big Fish scout parked		

Act	Win condition	Owner
0	4 frame slides with approved claims	Charles + COMPASS
I	Army lead figure + 1–2 sentence claim (G1)	Charles + CODA
II	MBB panel 9 claim tied to reigning lock	Charles + COMPASS
III	Tenure panel 9 + metric row (career rate)	Charles + COMPASS
IV	Model slide + λ knockout (G2)	Charles + SCOUT
V	Optional LOO lesson (1 slide)	Charles
VI	Gap slides + contribution stub	Charles → VECTOR

End-of-campaign win: One **flipbook PDF/PPTX** Charles can walk Alex through in ~20–30 min: every slide has **question + figure + claim**; gaps explicitly flagged.

3 — Time budget (PD30)

Tier	Work	Share
Primary	Flipbook claims, slide order, gap naming, talk rehearsal	Most deep-work blocks
Background	Tenure scrape, Big Fish poke, β_2 scout	Train / low-focus nights
Blocked-on-admin	Army data refresh	When CAC returns

Explicitly not primary: New Big Fish domains; perf-metric fishing until flipbook Act 0–III claims are **Charles-approved**.

4 — Deliverable menu (priority order)

P	Deliverable	Done when	Owner
P0 ★	Act 0 claims filled	0.1–0.4 have Charles-approved 1–2 sentence claims in disposable	COMPASS drafts → Charles
P1 ★	Act II claims filled (MBB)	2.1–2.4 claims + panel # pointers from manifest	COMPASS
P2	Act III claims filled (tenure)	3.1–3.2 claims from plot highlights	COMPASS
P3	Act I stub → G1	Army slide text ready; figure slot marked until CAC	CODA + Charles
P4	Act IV mechanism slides	Model.pptx wired; G2 PNG chosen	SCOUT
P5	Act VI contribution gap	One paragraph stub for VECTOR	COMPASS → VECTOR
P6	Export deck	PPTX or PDF flipbook	Charles
P7	Act V optional	LOO pedagogy slide if time	COMPASS

Each filled slide in disposable: # | Question | Figure path | Claim | Gap?

5 — Gap register (campaign blockers)

ID	Gap	Unblocks	Owner
G1	Army canonical hero / CIF PNG	Act I lead figure	CODA / Charles (CAC)
G2	Pass B λ knockout PNG	Act IV	SCOUT
G3	Tenure Cox slide (formal parallel)	Act III optional depth	PEER
G4	Contribution paragraph (Wang move)	Act VI close	VECTOR
G5	CAC restore	Army-forward deck refresh	Charles

6 — Agent roster

Agent	Paper campaign role
COMPASS	Sequencing, flipbook scaffold, claim drafts, gap triage
VECTOR	Manuscript voice pass after claims locked (G4)
CODA	Army figures, Cox/CIF, G1 when CAC returns
SCOUT	MBB reigning lock claims, sim knockout G2
PEER	Tenure claims from PD29 deck; background scrape
Charles	Approve/reject every claim; owns talk to Alex

7 — What is parked (PD30)

Item	Status
HERO domain scout (<code>hero_domain_scout.py</code>)	Parked — spec in flipbook disposable
Big Fish portfolio (legends, football composite, education)	Back burner
F-HERO / full θ calibration	After flipbook + Alex lock
Intro / lit review expansion	De-prioritized vs narrative of claims

8 — Folder map

3-Master_Plan/re_entry/ PAPER_Campaign_Plan.md ← you are here (strategy) _DISPOSABLE_paper_flipbook_PD30.md ← slide table (tactics) 01_The_Problem_in_Plain_English.md Model.pptx HEROs_and_PASSes/ sports_sandbox/data_story/ ← MBB 3×3 tenure_sandbox/data_story/ ← tenure 3×3 + perf football_sandbox/perf_story/ ← optional L00 pedagogy transcripts/PD29_notes.md · PD30_notes.md talent/ ← army Cox/CIF (G1)
--

9 — Next COMPASS moves (this week)

1. ~~Draft Act 0 claims~~ ✓ — Charles red-pen pass.
2. ~~Draft Act II claims~~ ✓ — Charles red-pen pass.
3. ~~Draft Act III claims~~ ✓ — Charles red-pen pass.
4. **Draft Act IV** mechanism claims (Model.pptx + G2 sim PNG).
5. Leave Act I figure-dependent text ready for **G1** slot.
6. **No new data campaigns** unless Charles says a slide is blocked.

Charles: say `fill Act IV` or red-pen Acts 0–III.

10 — Thread log

Date	Entry
2026-09-05	Paper Campaign Plan created post-PD30; army anchor lock; flipbook disposable linked as working slide table.
2026-09-06	Act 0 claims drafted in disposable (COMPASS) — Charles red-pen next.
2026-09-15	Act II (MBB) claims drafted — panels 1, 4, 5, 9 wired to reigning manifest.
2026-09-15	Act III (tenure) claims drafted — panel 9, perf story, three-leg composite.
